

Heilbronner H7 800 x 600

The cost-efficient and environmentally friendly alternative to the wooden Düsseldorf pallet.

In terms of dimensions, entry widths and payloads, the plastic pallet Heilbronner H7 is geared to the widely-used wooden Düsseldorf pallet. However, it offers significant advantages in application. The Heilbronner H7 maintains its consistently high quality even at increasing cycle numbers, providing a cleaner appearance. Thanks to three aluminum profiles under the runners, the pallet can be transported without wear on chain conveyors, too. To track the transport routes, the pallet is equipped with internal RFID transponders. The pallet is optionally available without aluminum profiles as well.

Bottom support

> 3 runners with aluminium profiles (3R-M)

> 3 runners (3R)

Deck options

> open deck (OD)

Aluminum profile inserts reinforce the runners...

...and stabilize the blocks of the palette.

The runners are locked on the deck.

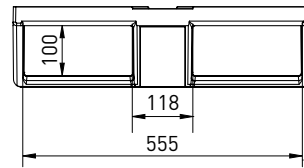

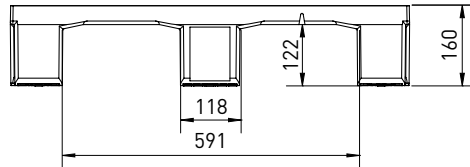

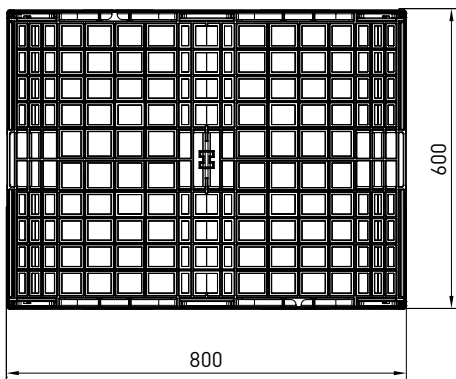

Hooks for fixing the stretch foil

nominal sizes in mm

Options

- Color: ■ (other colors on request*3) > Individual marking*3
- Anti-slip: Lowered areas in the deck to lock stacks of pallets or boxes (standard) > RFID transponders
- ESD prevention: - > Without aluminum profiles

*1 Figures can vary depending on the raw material used and options applied. *2 Guideline values are based both on experience and parts of test ISO 8611, which tests with evenly distributed loads at room temperature (20°C). Varying data may result from different conditions of usage. Your specific requirements can be identified upon request. *3 Minimum quantity required - PO pallets should only be used and stored in a dry environment. We reserve the right to change any of the stated information without prior notice.
